Volume XXXVI Number 2

President's Message

John Lovins

January weather has been great for flying, what a surprise!!! Jim Smith and I have been out to the sod farm several times trying to get tuned up for the SWC. When you look around out there and see the world class field we fly at I am always appreciative. We have been flying in the SE corner as the roads are blocked off for the hunters. This year blinds are set up on the north side. Please respect their right to be there and stay away from that area until further notice. Also flying near the houses on the SW side isn't a great idea. It's blocked off for now, but even when the barriers come down Kevin gets complaints from the homeowners...Let's not make life difficult for him.

While I'm talking about the field, if you see non club members flying please approach them. It's OK to have them fly as your guest a few times, but this is not a public flying field. Try to encourage them to join the AMA and RMSA.

The Southwest Classic is fast approaching January weather has been great for flying, what a surprise!!! Jim Smith and I have been out to the sod farm several times trying to get tuned up for the. Thanks to Bob Peterson for driving the trailer down. We will load on 2/11/12 (Saturday) from 10 to 12 at:

Jud Caissons
7257 W. 116th Pl.
Broomfield 80020

Bob will be leaving Sunday AM, arriving in Phoenix on Monday. Please be prompt. I think the count in the trailer is 9 so try to be compact with your gear.

We will be having a skills day on 2-4 to go over hand launch tasks at the SWC, and DLG launching. If there is time I can bring my winch and do some open launch practice also. Plan on coming out and keep your fingers crossed for good weather.

Thanks,

John Lovins

ROCKY MOUNTAIN SOARING ASSOCIATION FIELD RULES

1. The sod farm operations take precedence over **ALL** activities. We use the field at the convenience of the owner.
2. All members will follow **ALL** instructions from **ANY** sod farm personnel without question.
3. When sod farm operations are occurring during a flying session it is **OUR** responsibility to ensure that we will not interfere with operations. If it is unclear as to what is happening or where they intend to mow or work try to talk to workers or management and always move equipment or vacate the premises if necessary. Some workers do not speak very good English – in that case you must make every effort to avoid conflict or interference with operations.
4. Park only in the designated parking areas Do not park on grass, dirt or roads.
5. Avoid setting up on newly seeded areas or young grassy areas. The nice grassy areas are better to land on anyway!
6. Establish a frequency control pole and tag system! Frequency control is to be in effect at all times!! All members will post their frequency control tags on the pole and if there are conflicts, please exercise safety sense as well as share the flight time.
7. Parking and pit areas should be as condensed as possible for the safety of launch and landing.
8. Establish flight line areas for winch launch, high start launch, and hand launch that are separate for the sake of launch, flight & landing safety.
9. Flying over the parking/pit areas at less than 30 feet is prohibited. Doing so in competition **WILL** result in a zero flight score and during R/R flying a disciplinary action by the club.
10. No aerobatics or speed runs over the parking/pit/Launch/Landing zones.
11. Do not launch if a plane is circling in a launch zone: vacate the launch zone as soon as possible if someone is waiting to launch.
12. When entering a thermal occupied by other aircraft, enter in the same direction as the first aircraft
13. Landing aircraft have the right of way!
14. In the event of no mechanical retriever, please shag your own chute/line for the flight
15. Please share the usage of club equipment so that all have equal flight time.
16. Please be courteous and helpful to your fellow flyers as well as informative to all guests/spectators. Enjoy yourself and others!!
17. Absolutely no debris or trash is to be left on the field! Please take it home with you for disposal.
18. Make sure that your plane and electronics are airworthy before each flight. Exercise good safety sense in your flight
19. The aircraft will have an identification name/address or AMA number on or in the model in case of loss.
20. You **MUST** tag your winch/high start spikes or stakes with fluorescent tape so they are easily spotted on the field by all concerned. Members may be fined \$10 for each stake or nail not so marked. Previous damage to sod farm equipment from spikes left in the ground has made this rule **EXTREMELY** important.
21. Absolutely no alcoholic beverages will be consumed, prior to or during participation in any model event on the flying field.

I understand and will comply with all RMSA field rules:

For Winch Use:

If you are interested in using a club winch please contact Mike for the first time, and I will insure you have all the details for trailer access. Also if you are a new member and have not had a winch operation and safety briefing we will coordinate that.

Directions to Field

Take I-76 to exit 16. Turn left and follow the frontage road to the stoplight and turn east onto 120th eastbound towards the airport. Take 120th East to Tower Rd. Take 120th east of Tower Rd about 3/4 miles. We fly on the North side of 120th which is the SE quadrant of the sod farm.

Flying for RMSA members and accompanied guests only.
